

SwiftCAF® ATV

Fire, forestry, wildland, military and industrial emergency response professionals have found the SwiftCAF ATV to be perfectly suited for incident attack and response. Designed for use in restricted access emergency situations and on off-road, cross country and rugged terrain, this portable CAF system is completely self contained and can be mounted on a variety of vehicles.

This powerful unit may be used for a wide range of applications and is an extremely effective tool for use in fire, HAZMAT and decontamination situations.
