

Firefighters are always on call, but nearly one-third of emergencies do not require full turnout gear. In these scenarios, your best choice is Lakeland Dual Certified Gear.

DUAL CERTIFIED. BETTER PROTECTED.

When full turnout gear is not required, dual certified gear has you covered. Lakeland has designed gear that meets NFPA 1977/1951 Wildland/Urban Search and Rescue (Utility).

LAZERMAX™ TRIM.

Lakeland's patented silver reflective seam helps firefighters stand out and stay safe on the scene of an emergency. Maximize your nighttime visibility with reflective trim piping down each arm and leg.

3M™ SCOTCHLITE™ SEGMENTED REFLECTIVE MATERIAL.

Enhanced visibility is possible with the unique combination of LazerMax™ Trim and 3M™ Scotchlite™ Segmented Reflective Material.

TRIPLE PLEATED KNEE.

Improve movement and flexibility with one outside pleat and two inside pleats at the knee.

DUAL CERTIFIED GEAR

Performance Driven Design

TWO-PIECE SET-IN SLEEVES.

Maximum mobility and reach start with good shoulder construction. A two-piece set-in sleeve means improved movement with less restriction.

ERGONOMIC CUT & ATHLETIC FIT.

Comfort on the job is a requirement, one that Lakeland takes seriously. That's why all of our firefighter gear includes the same ergonomic cut and athletic fit. Stay nimble, stay comfortable, with Lakeland's enhanced features.

PLEATED SLEEVES. PLEATED BACK.

Movement. Flexibility. Maneuverability. These shared qualities of Lakeland's Dual Certified gear improve comfort, mobility, and performance when seconds matter.

STORAGE POCKETS. EVERYWHERE.

When you arrive at the scene of an emergency, be prepared with the tools you need in Lakeland's plentiful pockets, including radio, spade, side slash, expansion, seat, and more!

ARE YOU READY TO #GEARUP?
